

### **ABSTRACT OF THE DISCLOSURE**

A disposable underpants includes a waist portion and two legs holes. An absorbent pad is stitched to a crotch region on an inside of the underpants and includes two sides, a front end and a rear end. The front end of the absorbent pad is located at a position of wearer's pubis and the rear end of the absorbent pad is located at a position of wearer's buttocks. A width of the rear end of the absorbent pad is larger than a width of the front end of the absorbent pad.
